Summary & Career Objective

A passionate Frontend Developer with practical experience in building responsive, scalable web applications. Experienced in both frontend and backend development through academic projects and professional internships. Seeking a Frontend/Fullstack Fresher position to apply technical expertise, contribute to product quality, and continuously expand knowledge of modern web technologies.

Work Experience

Frontend Developer Intern

VIETDEFI
March 2025 - May 2025

- Developed responsive system interfaces using TypeScript and ReactJS.
- Integrated Redux Toolkit for state management, reducing code duplication and improving maintainability.
- Built a real-time, data-driven website with TailwindCSS for dynamic styling.
- Refactored UI into reusable components, enhancing scalability for future features

Backend Developer Intern

VNPT IT Center – Region 1
July 2024 - Sep. 2024

- Built backend APIs with Java Spring Boot to support internal systems.
- Configured backend servers in a virtual environment, enabling the frontend team to test APIs seamlessly.
- Designed database schemas, optimized SQL queries, and improved data retrieval performance in MySQL.

Education

Vietnam University of Agriculture

Aug. 2021 - Oct. 2025

Software Engineering and Technology
GPA: 3.01

English Level: B1 (CEFR)

Professional Project

Library Management System
- *Built a web app for **borrowing/returning** books online, with admin tools to **manage books**, **categories**, and **users**.*
- ***Implemented** borrowing **history tracking** and monthly usage **statistics**.*
- ***Tech**: React.js, TailwindCSS, Ant Design, Node.js, Express.js, MongoDB, Cloudinary*
- ***GitHub**: Library*

Multi-Tenant E-Commerce Platform
- *Created a **platform** for **creators** to launch storefronts with subdomains and sell digital products securely.*
- *Integrated product reviews, personal libraries, and automated fee handling.*
- ***Tech**: TypeScript, Next.js, Tailwind CSS, Shadcn, Node.js, Express.js, Payload CMS*
- ***GitHub**: Multi-Tenant E-Commerce*

Additional Information

Frontend: ReactJS, Next.js, Tailwind CSS, Ant Design, Shadcn UI, Redux Toolkit

Backend: Node.js, Spring Boot

Databases: MySQL, MongoDB

Tools: Git, GitHub, Postman, Thunder Client

Soft Skills : Communication, Teamwork, Presentation, Problem solving
